

LUCKY LINE

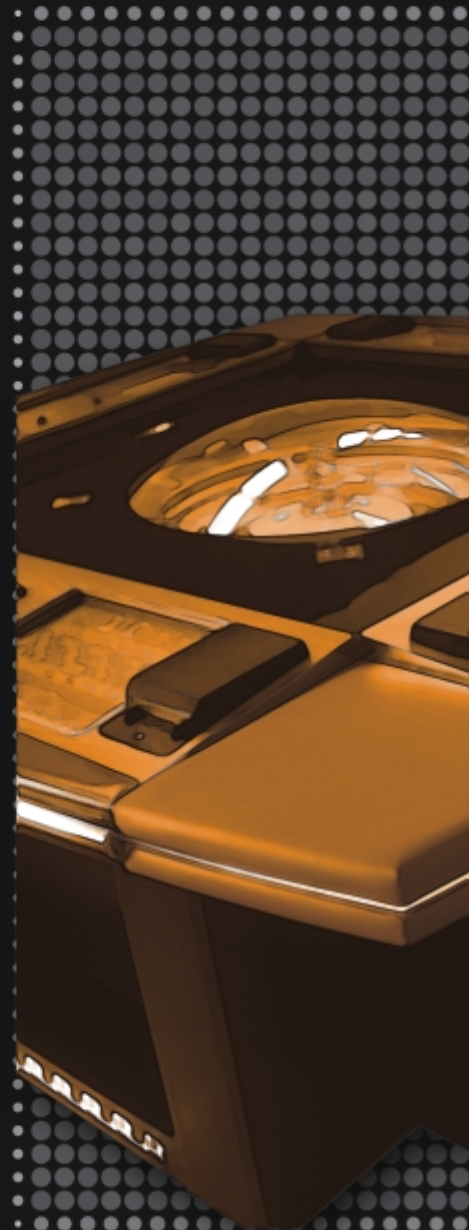

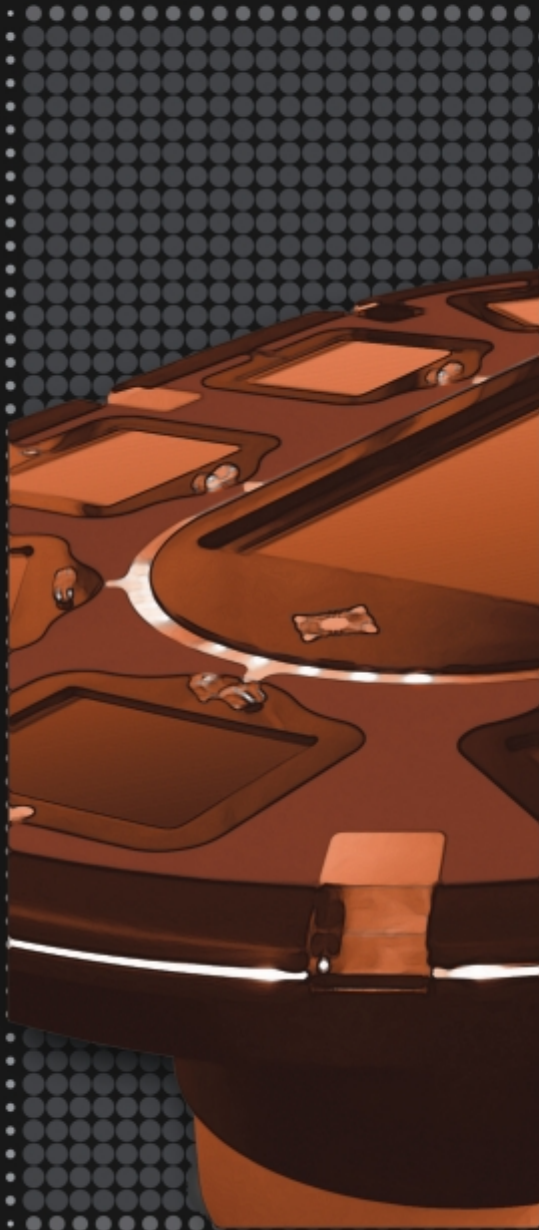

LUCKY LINE

Lucky Line d.o.o. is a manufacturer and distributor of gaming equipment, i.e. various models and designs of electronic roulettes and electronic Texas Hold'em poker tables.

Since it was established in 2002, the "Driving Force" of the company have been young and creative people who are experts in the areas of research, development, design, production, finance, marketing and sales resulting in a quality products for which we have gained various certificates.

By constant and hard work invested into the development of electronic roulettes we have been able to create and offer 4 models: Vegas, Colos, Nostalg, and Charlie.

Constantly following gaming trends in the world where Texas Hold'em poker is becoming more popular and widespread, we developed our version of electronic Texas Hold'em poker table "Poker 100".

POKER TABLE

TEXAS HOLD'EM

GAME RULES

Each hand is a community card game where each player may win any combination of the five community cards and their own two hole cards to make a poker hand.

To play hold'em, first all pockets of chips, individual chips for no ante and no blinds, are placed in the pot. Then the pot is divided into two parts: the pot and the blinds.

The pot is divided into a main pot and a side pot, if there are more than one player in the pot. A hand ends with a showdown, where the winner is determined by the best hand.

At the end of a hand, the pot is divided among the players who have the best hand. The pot is divided into a main pot and a side pot, if there are more than one player in the pot.

ELECTRONIC ROULETTE

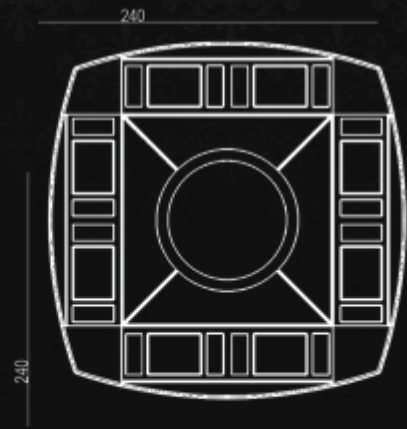

Lucky Line's electronic roulettes effortlessly combine high quality and range of models thus making an innovation. Our main goal is ensuring the products' quality. Lucky Line's dynamic and innovative team proudly presents a technologically progressive, aesthetically perfect roulette to meet all your playing needs. We offer our customers and gaming enthusiasts tradition and years of experience in the development and production of automated electronic roulettes, a new and reinstated gaming experience.

Our trademarks are automated electronic roulettes COLOS for 5 and 8 players, VEGAS and CHARLIE for 6 and 8 players, all made of both electronic and mechanical components with a computer automatically controlling the game thus insuring the win is a pure chance and luck. We are also very proud to present additions to our variety of products:

NOSTALGY "satellite" roulette,

And our latest product, the electronic Texas Hold'em poker table POKER 100.

charlie 8 charlie 8 charlie 8

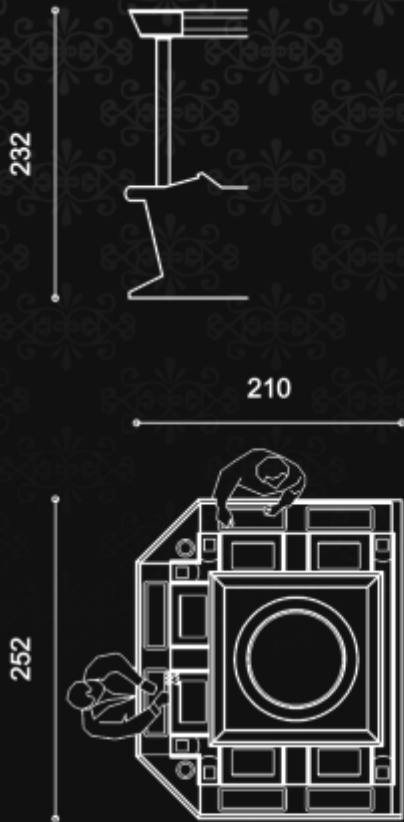

Our new Charlie model has more modern style with the combination of leather, chrome and wood thus offering adaptability to various interiors. There are 2 models: Charlie 6 & Charlie 8 with the only difference in the number of players' seats.

charlie 6 charlie 6 charlie 6

The youngest of our roulettes, with its powerful appearance Charlie has become a very popular roulette in almost every market where Lucky Line is present. It was developed after many years of experience with Colos and Vegas encompassing both the traditional and modern professional approach. With its optimal dimensions Charlie fits all layouts.

vegas vegas vegas vegas 6

Our standard roulette offer includes a GPRS module. The warranty for EU customers is issued in a period of 12 months starting from the date of installation and the spare parts are kept in stock for 5 years. Upon customer's request we can customize the configuration of the roulette: languages, points/credits ratio, field limits, ball speed, and high quality electronics.

colos & coloscolos & colos &

“Piano among pianos” called at the exhibition in Prague, Colos distinguishes itself from our portfolio by its lavish design inspired by the orient with gold motives and classical symmetrical elements, therefore bringing luxurious and royal touch in your casino. It is designed for all casino owners wanting to enrich the game providing a strong feeling of wealth and luxury to their clients.
